EQUINE FEED TO SUIT EVERY TYPE OF HORSE

Thompson & Redwood is a stockfeed manufacturer situated in the heart of WA's grain regions. The mill has been operating in Upper swan for over 34 years, producing over 90 different quality product lines and export to over 10 different countries across Asia and the Middle East.

T&R produce an equine range of 9 individual complete feeds, developed by qualified nutritionists and also offer a range of steam rolled and whole grains to supplement feed. T&R have a product to suit all horses requirements, age and breeds. Each equine feed is fortified with Advanced Feeds vitamin and mineral premix; this means no other supplements are required when feeding to direction. The equine range is now available in 20kg easy-open bags.

T&R have recently introduced a new range of herbal supplements from renowned manufacturer Dodson & Horrell. Their herbs are formulated by an expert herbalist that has over 30 years' experience treating thousands of equines. The introductory range includes six unique formulations designed to assist with common behavioural and management problems.

All feeds include the highest quality, local ingredients which are tested extensively to meet their strict standards. T&R products are known for their consistent freshness, all their orders are made-to-order and delivered each week to their local stockists.

T&R have just launched a new website as part of their commitment to ensuring that customers have all the information they need to provide their animals with the healthiest, freshest and most appropriate diet available. There is a great new tool called the 'Equine Feed Finder' which helps choose the best diet for your pony or horse. Subscribe to their website www.thompsonandredwood.com.au to keep up to date with latest news and competitions.
